Georgia, Azerbaijan and Armenia

THE CAUCASUS AZERBAIJAN, GEORGIA AND ARMENIA

At the crossroads of Asia and Eastern Europe, between the Black Sea and the Caspian Sea, the Caucasus is a unique travel destination. Few tourists visit this fascinating region but those who do are struck by its beauty, culture and history. On this trip, you'll pass snow-capped mountains, glaciers and gorges; dine with local families; and explore rock-hewn villages, mosques and UNESCO World Heritage-listed monasteries and churches.

Azerbaijan is a country boasting a history that dates back to prehistoric times and evidence of stone-age settlements. From the dynamic capital city of Baku to charming villages filled with stone buildings and cobblestone streets, to the ancient city Sheki, it is a country of contrasts. Azerbaijan was an important part of the Great Silk Route, and nowadays its economy is based on the abundance of oil and gas reserves. It is home to the UNESCO World Heritage-listed rock art site Gobustan and is the birthplace of the ancient Zoroastrian religion.

Georgia has an ancient culture and a unique alphabet found nowhere else in the world. Over the centuries all her neighbours have coveted over her land. Turks, Persians, Mongols, Arabia and the Russians have invaded and periodical civil war has also left its mark. But nowadays, it is a peaceful country becoming known for its quality wines and spectacular scenery. The capital, Tbilisi, has a modern European vibe, with cosy cafes, art galleries and theatres. Yet, leave the city and it may feel like travelling in medieval times, amongst palaces, castles, fortresses and rock-hewn villages. The UNESCO World Heritage-listed ancient capital Mtskheta sits at the confluence of the Aragvi River, and its 11th-century Svetitskhoveli Cathedral is where Christ's robe was buried. Admire the views of snow-capped mountains, gorges and glaciers as we travel through the country and the higher Caucasus Mountain range, reaching heights of over 5,000 metres.

This fascinating region has been overlooked by travellers for too long. Now is the time to visit, as it emerges as a destination for adventurous travellers.

Day 1, Friday 1st September IN TRANSIT

Depart Australia for Baku, the capital city of Azerbaijan. Flights (not included in your tour cost), are to be confirmed but likely to be through Doha with Qatar.

Day 2, Saturday 2nd September BAKU WALKING TOUR

On arrival you will be met by the local guide at the airport and transferred to your hotel for check-in.

Today the group will visit Baku's core sights including Nizami Street area and Fountain square. For many years this area has been a favourite location for the locals with its abundance of shops and places to eat and

share stories. We'll then head to the waterfront promenade for a visit to the Old City and fortress. You'll see the historically significant buildings including the Palace of the Shirvan Shahs, the symbol of the city - Maiden Tower, Karvansarays and the most important mosques. The Old Town walls which

have been well preserved, along with the narrow, cobbled-stoned streets and numerous labyrinths show how Baku would have looked hundreds of years ago. We'll head back to the hotel late in the afternoon to freshen up before our official welcome dinner. **D**

Day 3, Sunday 3rd September BAKU – GUBA – KHYNALIQ – KRASNAYA SLOBODA

After breakfast, we'll depart for Guba. Guba is located in the North-Eastern slopes of Mount Shahdag in Greater Caucasus, at an altitude of 600 metres above sea level, on the banks of the Kudyal river. Despite the fact that Guba is now a small town, in the Middle Ages it was the capital of Guba Khanate. We'll visit the core sights including the Juma Mosque and local carpet factory where locals weave carpets with characteristic patterns that are common in this region. Then we'll travel to the small, ancient Caucasus village of Khinalig, located high in the Caucasus mountains, at an altitude of 2,350 metres above sea level in the Guba region. Khynalygs have been living in the Caucasus for thousands of years. The village is inhabited by 2,000 light-skinned, blue-eyed people who consider themselves to be descendants of the Prophet Noah. Guests can take a short walk around the village. In good weather, the slopes offer a view of

the snow-capped peaks of the Caucasus. Later, we'll drive to Baku, dinner. *B/D*

 **Day 4, Monday 4th September**
GOBUSTAN AND ABSHERON PENINSULA

This morning we'll drive to Gobustan to see the perfectly-preserved rock paintings or petroglyphs as they are known. Gobustan Rocks reflect the prehistoric period of human existence of this region for nearly 15,000 years from the end of the era of the Upper Paleolithic until the Middle Ages. Azerbaijani scientists have found, described and studied more than 4,000 petroglyphs and this important work continues. You'll visit the interactive museum to learn more about this site before heading to the fascinating mini mud volcanos just north of the city. The last destination today involves a tour to "Ateshgah" - the Fire Worshippers Temple which is located not far from Baku. "Ateshgah" means the Place of Fire. It was built on the land where natural gas burned eternally and worshipped by Zoroastrian believers. Zoroastrianism (sometimes called less correctly 'fire worshipping'), one of the world's oldest religions, first began in Azerbaijan. Freshen up at the hotel prior to dinner. *B/D*

 **Day 5,**
Tuesday 5th
September
BAKU – LAHIJ –
SHEKI

Today we say goodbye to Baku and surrounds, check out of our hotel and head

north-west towards the Georgian border. The first thing you'll notice is that after you've left the great city region, you'll reach a desert-like environment. Along the way we will visit the famous Lahij village in the Ismayilly district. Most part of 2,000 people living in Lahij are involved in ancient crafts such as engraved copper work and carpet weaving. In the mid-19th century, there were more than 200 workshops in Lahij. Traders discovered Lahij crafts many centuries ago, and sold them for high prices at bazaars in Baghdad [now Iraq], Shiraz [now Iran] and other Middle Eastern cities. Stop by a copper workshop for an impromptu lesson in ancient craftsmanship you'll get to see coppersmiths use small mallets to decorate plates, trays, jugs, goblets and pitchers, just as their ancestors have done for centuries. Lunch is included today in a guest house. Then the group will drive on to Sheki where we'll stay for the one night. After hotel check-in we'll take a city tour (either in the afternoon or in the following morning). Sheki is one of the most famous and ancient places in Azerbaijan. Situated at over 2,000 feet above sea level, the city is surrounded by the mountains and forests of oak trees. Sheki was once an important stop on the Great Silk Route. We'll start our Sheki tour from visiting the 18th century

Khan's summer palace with magnificent frescos and exquisite stained glass work. Then we will visit a "Shebeke" workshop where you'll meet local craftsman who will tell about their process. After we will also visit workshop of Sheki baklava that is popular all over Azerbaijan before visiting the Albanian church which is located in Kish village. As the legend says, this church is the first Christian church built not only on the territory of the Caucasian Albania, and in general - in whole Transcaucasia. This place is also remarkable because the burials of people whose constitution is different from the present inhabitants of the region were found at the temple. Scientists and researchers who have studied the found skeletons have come to the conclusion that they belong to tall people, with blond hair and blue eyes. Dinner is at a local restaurant. *B/L/D*

 **Day 6, Wednesday 6th September**
SHEKI – SIGHNAGHI – TBILISI

Get ready to see what many people say, is one of the most scenic countries on the planet.

Of the several sculptural artworks on display of particular interest is the "Ali and Nino" statue by Georgian sculptor Tamara Kvesitadze – two towering human forms made out of metallic discs and constantly on the move. In the middle of the complex is a Church of Assumption, richly decorated with mural painting. Note that there is some uphill walking and some
