Ethiopia in Detail – with the Omo Valley

Tour overview

With its fabulous 3,000-year history, diverse peoples, vibrant culture, wildlife, and magnificent scenery from high mountain plateaus to parched deserts, you have so many reasons to visit this incredible country.

Located in the northeast Horn of Africa, Ethiopia is the oldest nation in Africa. A country with one of the richest histories on the African continent, Ethiopia has extraordinary archaeological sites. In the North of the country are the seventeenth-century castles and the Imperial Compound of Gondar, the monasteries of Lake Tana and the thirteenth-century monolithic rock-hewn churches of King Lalibela in the Wollo Region – the Eighth Wonder of the World. In the East, the 1000-year-old city of Harar, with its 99 Mosques, is the fourth holiest city in Islam, after Mecca, Medina and Jerusalem.

Ethiopia is one of the largest countries in Sub-Saharan Africa, covering over one million square kilometres. It has every variety of scenery, from the peaks of the Simien Mountains in north Gondar to the deep Dalol depression in the west. The landscape is dominated by a volcanically formed central plateau, known as the Ethiopian Highlands, with an average altitude of 2,000 metres and 20 peaks of 4,000 metres or higher. These Highlands form the source of four major river systems, the best known being the Blue Nile, which rises in Lake Tana in the northwest. The same outpouring of lava also contributed to a giant tear across the Earth's surface, visible from space, known as the Great Rift Valley. The Valley is home to seven large and beautiful lakes in the heart of the country, caused by the millennia of heavy rainfall that deluged Africa at the same time that northern Europe was going through its 'Ice Age'.

The wildlife found in Ethiopia is quite different from that of the rest of East Africa, showing some affiliations with the Middle East, and includes the native Walia ibex, Gelada baboon, Simien fox and mountain nyala. However, it is the people of Ethiopia who truly round out the character of this land of enormous ethnic diversity. Communities of Semitic, Hamitic, Nilotic, and Omotic stock make up more than 80 ethnic groups (with as many languages). The majority of the population is Christian, while a third of its population is Muslim. About 90% of the 130 million-strong population earns its living from the land, mainly as subsistence farmers.

Finally, no trip to Ethiopia is complete without witnessing the remarkable Timkat ceremonies, celebrating the Baptism of Jesus. The colours are nothing short of spectacular, and it ranks as one of the world's greatest street festivals.
